FRESH'TIME

IGP Atlantique - Red - 2023

LOCATION

The IGP Atlantique (Protected Geographical Indication) designates the great terroirs of south-west France, which benefit from the Atlantic, with the warmth of its sun and the ideal humidity provided by the sea spray. Close your eyes and enjoy a glass of IGP Atlantique wine: you're there !

PRESENTATION

FRESH'TIME is a fresh red wine for all occasions. This light, fruity red wine is best enjoyed at a temperature of between 10°C and 12°C. At this temperature, its aromas are at their peak. The FRESH'TIME label has been designed to reveal the image of a glass when the wine is at the right temperature.

WINEMAKING & AGEING

The grapes are harvested when the aromatic notes are still fresh and the phenolic ripeness has been reached. Short pre-fermentation maceration of the harvest to extract the fruit without the tannins. For part of the cuvée, the harvest is pressed, cooled and vinified. The other part of the cuvée is vinified using the traditional method. Gentle extraction of the tannins with limited, gentle pumping over.

VARIETALS
Merlot 100%

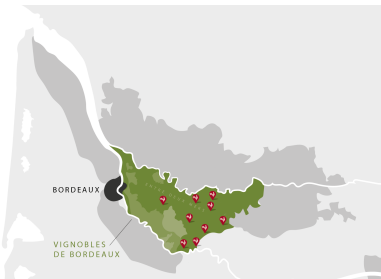

FOOD PAIRINGS

Serve between 10°C and 12°C. Enjoy as an aperitif, with a platter of cold meats and cheese.

TASTING

The nose reveals rich, intense, fruity aromas of fresh fruit. On the palate, the structure is supple, round and pleasant. Perfect balance between fruity aromas and supple tannins.
